Meet your local advisory team

'Supporting Your Child's Learning At Home'

Parents and carers are invited to meet our team of local professionals including *Advisory teachers, Occupational therapists, and Educational Psychologists* who support schools and families of children with Additional Learning Needs (ALN) in Pembrokeshire.

In each of the 3 regions across Pembrokeshire, we will offer a topic based Workshop for parents and carers to gain extra information, strategies and advice to support their children's needs. This will also be an opportunity for families to share their own experiences, issues or concerns with other parent and carers.

Parent and carers who attend the Workshops are also offered a group consultation session with the professionals in attendance, including:

- The Advisory teacher for Specific Learning Difficulties
- A Paediatric Occupational Therapist
- The Educational Psychology Service
- The Parent Partnership Service
